

Get Cyber Safe

Resource list

Get Cyber Safe is a national public awareness campaign created to inform Canadians and Canadian businesses about cyber security. We offer a variety of resources that include simple steps to protect yourself and your business online.

See our list below for infographics that can be shared digitally or printed out.

The 7 red flags of phishing

We heard you got a new device (new device checklist)

Identity theft is no joke!

Malware infographic detected!

Social engineering: How cyber scams trick us

Real examples of fake emails

Multi-factor authentication makes cyber security all about you

Does your data have a backup plan?

Your software is so last year (update your software!)

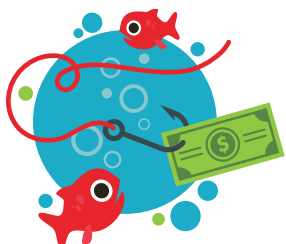

Ransomware: Back up your data, or else!

How to stay cyber safe during tax season
